## Nail Art Machines

Welcome to Nail station. Nail station has introduced the concept of Nail fashion to the global nail care industry. And, it is only from nail station you can apply high quality fashion images in vibrant color and photographic clarity directly on to natural or artificial nails in seconds. The only limiting factor is your imagination. Thousands of images are built into the system and you can even add your own artwork or digital photographs!

The nail station is accurate because it picks out the shape of each individual nail and only prints on the nail. It's quick and clean.

Designs on Nail's

- With a Nail station you can:
- \*Match designer clothing and accessories.
  - \*Print photographs directly
  - \*Apply school and sports logos
  - \*Create indian designs
  - \*Design virtually any fashion you can imagine!

Our Support

## What we are...

Coollex industries with over three decades of expertise in making air-conditioning & refrigeration systems, observed the fast changing scenario in the world about the incredible opportunity that awaits in the field of food vending and kiosk business and ventured into franchising these successful concepts in India, Dubai and Malaysia. We have been supporting entrepreneurs and institutions who wish to set up their own chain of snack food and kiosk vending business.

Coollex industries is founded by dynamic and innovative personality Mr. P. Radhakrishna who introduced world's first concepts like microprocessor multi split air conditioned, instant coconut chiller and sugarcane crusher cum chiller, the same legacy is continued by his son Mr. P. Sandesh with more dedication and innovation.

Coollex is also the leading manufacturer of high quality soya food products.
